Projects

- **Full-Stack-Job-Portal**, <https://ritikdarode.pythonanywhere.com/>
Developed a production-ready Django based job portal featuring role-based auth (Candidate/HR), PDF resume processing, real-time application tracking, duplicate checks, HR shortlisting, and CI-backed deployment on PythonAnywhere.
- **Everything-Moe-Directory**, github.io/Everything-Moe-Directory/
Engineered an interactive React 18 & Vite web app indexing 215+ IT companies and 28+ job portals with real-time search, analytics dashboard, and automated GitHub Actions CI/CD.
- **Business-Directory-System-Management** [repository link](#)
Developed a full-stack SaaS directory application featuring Django REST backend, React SPA frontend, role-based governance workflow, hierarchical categories, location search filtering, token authentication, and optimized API endpoints using database indexing.
